Bachelor's Degree in Healthcare Administration

A bachelor's degree in healthcare administration can help you develop the skills and competencies you need to function as a supervisor or manager in the healthcare field. This bachelor degree in healthcare administration program will introduce you to the business challenges of the healthcare delivery system and give you a better understanding of management's role in this complex system. As a graduate of the bachelor degree in healthcare administration program, you could be prepared to work in entry-level management and accounting positions in hospitals, clinics, long-term facilities, and more.

May be completed in as few as 30 months under a flexible accelerated schedule.
