

School of Healthcare

Associate of Occupational Studies

MEDICAL SPECIALTIES

PROGRAM LENGTH: 20 MONTHS
Orem (Provo) & St. George Campuses

(Not currently accepting applications)

Become a valued member of the medical team

The healthcare industry is expected to add over 3.1 million new jobs to the economy between 2014 and 2024.¹ Medical organizations need educated workers who have the knowledge and skills to help them deliver healthcare services to patients. With the right degree, you could gain the essential training you need for a broad variety of medical careers.

Program objectives

The associate of occupational studies in medical specialties degree is designed to prepare you for employment in a wide range of entry-level medical careers. This program delivers the fundamental knowledge and practical skills you need to work as a medical assistant, pharmacy technician, or medical biller/coder.

Program objectives also include preparing you for potential certification or licensing in various areas of medical specialties.²

Why choose Stevens-Henager College?

Stevens-Henager College provides the degree you need for the career you want—on your terms and on your schedule. You can go to class days or evenings, whichever works best for you, and get the flexibility of hybrid classroom or online³ courses.

Our degree programs are career-focused, without elective courses that you don't need or want. Complete your associate of occupational studies degree in as few as 20 months!

And, because Stevens-Henager College is smaller than most traditional colleges and universities, you can get more personalized attention and support from your instructors, tutors, advisors, and deans when you need it.
